These Clopay doors feature:

- 3-Layer Steel Construction - Featuring polystyrene insulation
 1. Steel - heavy-duty steel - resists warping cracking or splitting
 2. Insulation - 1 3/8" thickness
 3. Steel
- Lifetime warranty on paint; 3 years on hardware
- 4050 model - traditional raised panel design
- Pre-painted finish can be painted to match your house color or trim. [White]
- Rust-proofed with G60 galvanizing. Finish is painted inside and out with baked-on polyester top coat.
- Extended life cycle nylon rollers
- Vinyl bottom seal conforms to irregular garage floors to form a tight seal against the elements

- Premium Class Features

1. 1 3/8" thick polystyrene insulation provides R-value of 6.5
2. Patented Safe-T-Bracket cannot be removed under normal circumstances when door is under tension
3. Rust-proofed aluminum bottom weatherseal retainer. Bottom weatherseal conforms to floor irregularities to provide tight seal against the elements.
4. Tongue and groove joint provides tight seal against the elements
5. Galvanized solid steel hinges are durable, reliable and secure.
6. Top quiet nylon rollers provide durability and quiet operation.
7. White finish painted end stiles provide extra support to hinges and rollers
8. Step plates, inside and out, allow for easy manual closure

Actual product has pilot holes on end stiles.
